Adventure Centre Updates:

Construction work is underway at our MOE Adventure Centres.

In a few weeks, campers will be able to sample fresh harvest from our in-house, 100% organic vegetable and herb gardens! They will also be able to get involved in the whole process of vegetable farming: from planting seedlings, doing the chores, right up to harvesting mature plants and eating them.

Another addition to the Adventure Centres’ facilities is the new outdoor cooking facility. The set-up will allow groups to prepare their ingredients on outdoor worktops, start charcoal fires in the fire-pits for barbeques, and sit around their stoves comfortably while cooking and chatting.

Nothing tastes better than food that is grown, cared for, and harvested through your own effort.

The edible gardens and outdoor cooking facilities project is part of the Adventure Centres enhancement project that seeks to provide a greater variety of age-appropriate facilities for our students.

The facilities are available at Changi Coast, Labrador and Jln Bahtera Adventure Centres.

Advance notice is required for use of the edible gardens. Please give us a call or email us for booking information.
“Sense of place” means different things to different people. Some people relate it to the warm and fuzzy feeling of an appreciation of a place; others link it to having a bond or a sense of belonging with a place. Writer, Daniel Kriesberg, defines it simply as “knowing the stories of the land where you live and feeling a part of those stories.”

How important is having this relationship with the place where one works, plays, lives or, even, visits? Environmental psychologists argue that without a sense of place, we risk not only losing our ‘self’, but also risk alienating or destroying the very communities and habitat that provides the land where you live and feeling a part of those stories.

Have you heard…?

Outdoor adventure facilities at MOE Adventure Centres will be undergoing a facelift at the end of 2014! The upgraded challenge course will provide developmentally appropriate challenges that cater to both primary and secondary school students. The Adventure Centres will be closed during the construction period. We apologise for any inconvenience caused.

ANNOUNCEMENT: All schools are invited to attend a briefing for the use of MOE Adventure Centres (ACs) & Sea Sports Centre and MOE-Sponsored OBS Student Leadership Programme (Sec) for 2015. The briefing will include an overview of the enhancements at the MOE ACs, and the annual booking exercise. For Pri: 1/9/14, 3.30-5.00pm; for Sec: 2/9/14, 3.00-5.00pm; venue: AST Auditorium.
